https://www.linkedin.com/in/antonioreyesphx/ | https://github.com/golden-state0fmind

Technical Skills

Languages
HTML,CSS,JavaScript,Python

Libraries and Frameworks
React,React-Native,Node,Express,Flask,Bootstrap,Next.js

Database
PostgreSQL,Sequelize,SQL/noSQL,Firebase,Azure

Other
RESTful API,Git,GitHub,ES6,JSON,AJAX,Data Structures,Object-Oriented,Async Programming

Professional Experience

Mobile Developer Intern
GETCities ⤢
08/2021 – present | Remote, USA
- Developing iOS mobile application using functional components and hooks in React Native.
- Collaborating with UX/UI team to translate Figma designs to build a user-friendly application.
- Creating server less PostgreSQL database using AWS RDS to manage and protect data.
- Building mobile application from conception to a finished product.

Full Stack Software Engineer
Make It MVP ⤢
06/2021 – present | Remote, USA
- Developing front-end mobile app architecture with functional components and React hooks in React Native and JavaScript.
- Creating server less database in Google Cloud Firebase/Firestore for managing and protecting data.
- Designing, building, and maintaining mobile app and software application from conception to a finished product.

Bartender
Waldorf Astoria
02/2018 – 12/2020 | Phoenix, AZ
- Addressed guests in a timely manner while preparing cocktails per Forbes standard to guarantee guest metric scores exceeding 80%.
- Collected data on liquor sales to enhance menus and facilitated inventory on a daily and monthly basis with directors.

Projects

Namaste-goodvibes
JavaScript,React,Next.js,Vercel,MaterialUI,Firebase
04/2021 – 06/2021
This snappy website is intended to advocate wellness by promoting healthy food recipes, motivational quotes and ways to stay fit.
- Cloud Firebase integration, noSQL queries in Firestore.
- Design and develop pages while handling information architecture.

Virtual-Glovebox
ReactNative,JavaScript,Node,Jest,TailwindCSS,Firebase,Expo
02/2021 – 04/2021
A continuation from a hackathon I joined with two developers and two UX/UI designers. Our goal is to take this project to the iOS store and eliminate paperwork bureaucracy.
- Constructs Firestore database queries.
- Writes tests with Jest and React-Native testing library.
- Developed maintenance screen workflow.

Pet Pals
JavaScript,PostgreSQL/Sequelize,Express,React,Node,React-Bootstrap,HTML/CSS,Azure
12/2020 – 12/2020
Designed a social media application for pet owners with two other developers. Building a community of animal lovers to connect online.
- Built API calls through axios from Cloudinary to the database.
- As a capstone project I took this project and deployed to Microsofts Azure's services. Experience with Azure's SQL cloud migration CI/CD through GitHub actions and hosted through Azure App Services.

Education

Software Engineering Immersive
General Assembly
12/2020 | Remote
- Full-stack software engineering immersive student in an intensive, twelve-week, 450+ hour program focused on product development fundamentals, object-oriented programming, scoping, callbacks, event looping, IIFE, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.

AAS Computer and Information Technology
Paradise Valley Community College
01/2020 | Paradise Valley, AZ
- computer science courses
